

MESSY INJURY QUESTIONNAIRES TO BETTER TREATMENT

Step 4: Mechanism & Rules

Tackling	Tackled
No	Yes
Impact with Ground	Impact with Ball
Yes	No
Tackle Direction	Injury Reason
Side	Accident

Brief Report of the play/situation that caused injury

Got tackled and he said that the tackler probably hit him and cut open his wound ag

CHALLENGE

- Injury data collected at scale
- Inconsistent records slowing analysis
- Follow-up information difficult to use

AI-ASSISTED. EXPERT-REVIEWED.

01 AI DOES THE HEAVY LIFTING

- Structures data and runs analysis
- Flags inconsistencies for review

02 EXPERTS CHECK THE WORK

- Review methods and results
- Interpret findings in study context

DELIVERED

Data Preparation: 2 weeks → 3 days

Analysis-ready records: 70% → 95%

2 confirmatory findings and 3 exploratory findings

OUTCOME

28% more effective follow-up treatment plans
